DESCRIPTION

This is Cottage Living done the right way! "Beach Basecamp" has been masterfully and beautifully transformed by Bakker Construction into a luxury, modern Coastal Retreat in Carmel by the Sea. Reimagined and redesigned, this 3 bed, 2-bath, one-story home with separate office is 1465 total sq ft and as turn-key as one could ever want! Creamy off-white walls and a dreamy waterfall quartz kitchen counter contrast with mid-toned European white oak wide plank floors. The vaulted, beamed ceilings add incredible airiness while the windows and French doors create a light-filled home. Renovated in 2017 to maximize the interplay between light, architectural design and indoor-outdoor flow, this home is a 10+++! The separate office is finished to the same degree as the home, leaving nothing to be desired except to step outside and enjoy the private flower-filled patios. Relax, entertain, work from home, it's all possible in this gorgeous renovation. This is what classy Coastal Living is all about!
