PROPERTY DESCRIPTION

**B**ig Sur's stunning Casa Luna features the organic architecture of Mickey Muennig, designer of The Post Ranch Inn and many iconic Big Sur homes. Located on Pfeiffer Ridge, Casa Luna is perfectly built in to the earth resulting in three levels of indoor-outdoor living, each of which enjoy ocean and mountain views, full sun and moon light, and adjoining patios, terraces, and gardens. The top level features a massive "wall of glass" living room with fireplace and ocean views, and a lovely garden to table kitchen with those views too. A modern detached studio offers space for creative pursuits, and plans exist for a detached guest house. With it's earthy elegance, full sun, ocean & mountain views and gentle landscape, Casa Luna offers a rare quality of living that some say is reminiscent of Greece or Mallorca, but this is central California's Big Sur, and entirely unto it's own. This is a very rare opportunity to own a "Mickey" in Big Sur, a place apart where time runs at it's own pace.

Small square footage, acreage, and other information herein may have been received from a variety of sources and has not been verified. If important to buyers, buyers should conduct their own investigation.
